DECODALLE

CORK WALL TILES TECHNICAL SPECIFICATION

GENERAL DEFINITION AND PRODUCT COMPOSITION

Description	Veneered agglomerated cork tiles, to be used as interior wallcovering, in accordance with EN 12781. Tiles have a decorative cork veneer adhered on a core of agglomerated cork (painted in selected articles). Tiles are cut in the dimensions of 600x300 mm and have a thickness of 3 mm. The surface is fine sanded, painted (in selected articles) and finished with a wax-based product.
-------------	---

Dimensions	600 x 300 x 3 mm
------------	------------------

Finish	PARAWAX Wax based product developed specially for cork, with good flexibility, abrasion, and moisture/water repellence.
--------	--

Product structure

Finish layer: PARAWAX
Veneer: Natural and agglomerated cork veneer (can be painted). Core layer: Agglomerated cork (can be painted).

Installation	Glued, according to installation instructions.
