CORK WALL TILES TECHNICAL SPECIFICATION

GENERAL DEFINITION AND PRODUCT COMPOSITION

Description	Veneered agglomerated cork tiles, to be used as interior wallcovering, in accordance with EN 12781. Tiles have a decorative cork veneer adhered on a core of agglomerated cork. Tiles are cut in the dimensions of 900x300 mm and have a thickness of 4 mm. The surface is fine sanded and finished with a coloured waterbased protector for increased water and stain resistance.
-------------	---

Dimensions	900 x 300 x 4 mm
------------	------------------

Finish	CORKGUARD® Aqueous dispersion based on SCOTCHGARD™ and a combination of resins, designed to provide excellent water, oil and stain repellent properties on natural cork. With CleanSurface powered by Microban® antimicrobial technology.
--------	---

Product structure	Finish layer: CORKGUARD®, coloured. Veneer: Natural and agglomerated cork veneer. Core layer: Agglomerated cork.
-------------------	---

Installation	Glued, according to installation instructions.
--------------	--
